register.

In the summer and fall of 2024, a newly developed Soil Health Assessment Protocol (SHAP) was piloted on 28 farms across B.C. to evaluate key soil health indicators. Join the Ministry of Agriculture and Food for a workshop focusing on how to use the SHAP protocol to evaluate the physical, chemical, and biological indicators for your soil health and strengthen soil management decisions that support productivity and environmental resilience.

Audience

- Farmers
- Agrologist
- Land stewards
- SHAP Contractor
- Public

Topics to Cover

- Overview of SHAP Protocol
- 2024 Trial of SHAP Protocol
- Summary of key findings and the meaning for soil management

Facilitators

Ahmed Lasisi & Dieter Geesing
(BC Ministry of
Agriculture and Food)

Under the Sustainable Canadian Agricultural Partnership, a federal-provincial-territorial initiative.
